THE HONG KONG POLYTECHNIC UNIVERSITY
Faculty of Engineering
Engineering Doctorate Programme

RESEARCH PROJECT PROPOSAL

Name of Candidate:_____Applicant Full Name_____

Date of Admission to this programme:_____November 28, 2015_____

Full time mode

1. **Project Title:**

   Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like "Huardest gefburn"? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language.

2. **Project Objectives: (Purpose of proposed investigation)**

   Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like "Huardest gefburn"? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language.

3. **Scope and Background of Research:**

   (Please identify key issues/problems to be addressed)

   Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like "Huardest gefburn"? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language.

4. **Research Methodology:**

   Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like "Huardest gefburn"? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written

and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language.

5. Project Significance and Value:

Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like "Huardest gefburn"? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language.

6. Details of Any External Collaboration:

Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like "Huardest gefburn"? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language.

In these circumstances, are there likely to be any complications associated with the publication of your thesis? Give details.

7. Project schedule

Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like "Huardest gefburn"? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language.

8. **Research Ethics / Safety Approval**

   (For ethics approval, (Temporary) Chief Supervisor please read the Guidelines for Ethics Review of Research/Teaching Projects Involving Human Subjects, which are available at https://www2.polyu.edu.hk/research_handbook/appendix/ap6g.pdf, and make sure that ethics approval is obtained if your project involves human subjects. For safety approval, please read the policy and procedures for safety approval available at the Health, Safety & Environment Office Homepage. Please attach the approval letter where appropriate.)

   (Temporary) Chief Supervisor confirms that approval:

	* has been obtained	* is not required	* will be obtained before the start of the project
Human Research Ethics	✓		
Animal Research Ethics	✓		
Biological Safety	✓		
Ionizing Radiation Safety	✓		
Non-ionizing Radiation Safety			
Chemical Safety			

   (* Please tick as appropriate)

9. **Statement of the Applicant**

   I wish to register for the research project component on the basis of the proposal given in this Form.

   I understand that, during the period of my registration with the University, I may not be a candidate for any other degree or award.

   I understand that, except with the specific permission of the EngD Programme Committee, I must prepare and defend my thesis in English. (You are required to seek permission if another language, which is considered more appropriate to the subject, is to be used in the presentation of the thesis. Please submit the justification together with this application)

   I undertake to abide by the general regulations of the University.

   Signature _____ Date _____ November 28, 2015 _____
   (Applicant)

   Name of Applicant _____ Applicant Full Name _____

10. Endorsement by the Proposed Chief Supervisor

Signature of Chief Supervisor _____ Department _____ Computing _____

Name of Chief Supervisor _____ Supervior Name _____ Date _____ November 28, 2015 _____

[Please send this form to the Departmental Research Committee]

11. Recommendation of Chairman of Departmental Research Committee

I support / do not support this project proposal.

Comments: _____
