OBJECTIVE

The `ALT4mr` is a multi-page resume template, you can use the `\Myhref` command to insert hyperlinks, add `fontawesome` icons, and use `\mintinline` command to add in-line code. Compilation with `Lualatex` is recommended. This template is based on another template I came across years ago, yet unfortunately I lose the name and link to it, anyone who has a clue about that template is welcome to connect.
