Here we put a very nice title

Author One*, Author Two, Final Author

LOCATION AND DATE

Raffaello Sanzio - La scuola di Atene

Remember that the outline is not:

- ▶ Intro
- ▶ Theory
- ▶ Data
- ▶ Conclusion

That is just the logical structure of ANY presentation. A proper Outline is:

- ▶ We want to save the world
- ▶ SuperHeroes we considered
- ▶ IronMan is the best solution
- ▶ Strenght is the best attribute of IronMan
- ▶ We saved the world thanks to IronMan

ENUMERATE
1. One
2. Two

I like to split data and figure in columns:

First column

Maybe a figure here

Usually

3 columns

are one

too many

Fig from[1]. P Data from[2]
