These are my acknowledgements.

Chapter 1

Introduction

This is my introduction. Here is some maths:

$$c_l(i, n, \tau) = \begin{cases} 0 & \text{if } \psi = \emptyset \\ \frac{1}{|\psi|} \sum_{d \in \psi} w_m(x - n) c'(i, d, \tau) & \text{otherwise} \end{cases}, \quad (n \in \Psi) \quad (1.1)$$

where $\{\psi \subset \Psi : n \leq \Psi \leq n + 2L\}$,

$$c'(i, n, \tau) = \frac{1}{M_c + 1} \sum_{d=n-\frac{M_c}{2}}^{n+\frac{M_c}{2}} h_L(i, \max(d + \tau, d)) h_R(i, \max(d - \tau, d)), \quad (n \in \Psi), \quad (1.2)$$

$$w_m(n) = A \max\left(1 - G \frac{e}{\alpha_m} h_{lp}(n), 0\right), \quad (1.3)$$

Here is a figure. See Figure 1.1. You'd never guess, but Table 1.1 is a table.

Table 1.1: Octave-band and overall room RT_{60s} (in seconds).

Room	Octave-band Centre Frequency [Hz]							Overall
	125	250	500	1k	2k	4k	8k	
A	0.56	0.33	0.36	0.27	0.29	0.27	0.23	0.32
B	0.89	0.60	0.47	0.46	0.60	0.70	0.61	0.47
C	0.93	0.97	0.70	0.67	0.64	0.54	0.40	0.68
D	0.94	0.88	0.94	0.83	0.77	0.64	0.48	0.89

$$F = \sqrt{s(s-a)(s-b)(s-c)}$$

Figure 1.1: This is not in the LoF.

Chapter 2

Heading on Level 0 (chapter)

Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like “Huardest gefburn”? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language.

2.1 Heading on Level 1 (section)

Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like “Huardest gefburn”? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language.

This is the second paragraph. Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like “Huardest gefburn”? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language.

And after the second paragraph follows the third paragraph. Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like “Huardest gefburn”? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language.

After this fourth paragraph, we start a new paragraph sequence. Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like “Huardest gefburn”? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language.
