Abstract

Each thesis or dissertation must contain an abstract. The abstract is expected to give a succinct account of the thesis/dissertation so that a reader can decide whether to read the complete work.

For master's theses, the abstract cannot exceed 150 words, while, for doctoral dissertations, the abstract cannot exceed 350 words. An abstract contains a statement of the problem, the procedure or methods used, the results and the conclusions.

Contents

List of Tables

1 Table to test captions and labels. 1

List of Figures

- 1 Figure should be placed at the top or bottom of a page by using 'b!' or 't!' respectively. This is an example of an image that is aligned to the bottom of the page. 2

1 Introduction

This is the introduction chapter. You can add subsections to the chapter as well. Remember to label your sections so that you can refer to them later in the text.

1.1 Subsection

This is a subsection. Table 1 shows a simple example of a table.

Col1	Col2	Col2	Col3
1	6	87837	787
2	7	78	5415
3	545	778	7507
4	545	18744	7560
5	88	788	6344

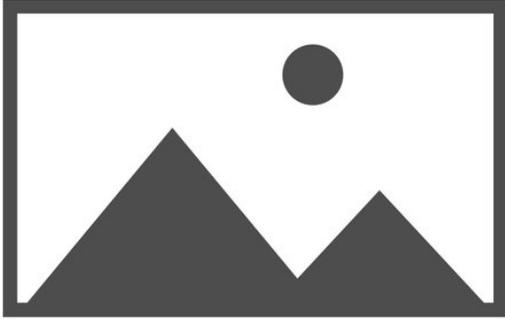

Table 1: Table to test captions and labels.

1.1.1 Subsubsection

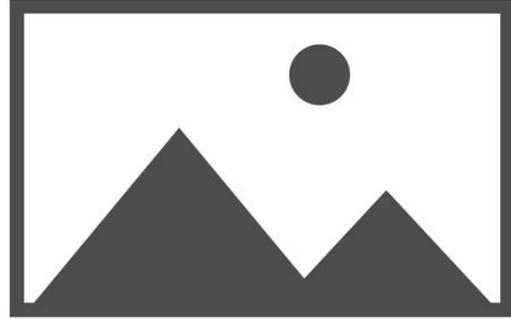

This is a subsubsection. I can reference to the previous subsection as “Section 1.1”.

2 Literature Review

This is the literature review chapter. Figure 1 is an example of a figure. This is a citation [1]; you can find the details of this citation in the biblio.bib file.

(a) I am a caption.

(b) I am a caption.

Figure 1: Figure should be placed at the top or bottom of a page by using ‘b!’ or ‘t!’ respectively. This is an example of an image that is aligned to the bottom of the page.

2.1 Subsection

This is a subsection. Equation (1) is an equation.

$$\mathbf{E} = mc^2 \tag{1}$$

Several commonly used mathematical notations such as \mathcal{E} , *e.g.*, \mathcal{L} , ... are defined in the defs.tex file for your convenience.

2.1.1 Subsubsection

This is a subsubsection.

3 Method

4 Experiments

5 Conclusion
