Thesis Title

First name Family name

Candidate's academic degrees

Candidate's ORCID

*A thesis submitted for the degree of Doctor {Master} of Philosophy at
The University of Queensland and the University of Exeter in {year}
{Name of the Enrolling Units}*

Abstract

Start this section on a new page. Delete any guidance text in your final thesis/dissertation.

The abstract should outline the main approach and findings of the thesis and must be between 300 and 800 words.

Keywords

Maximum 10 words; use lower case throughout, separating words/phrases with commas. For example:
word, word word, word, word, word word

Declaration by author

Start this section on a new page. Delete any guidance text in your final thesis/dissertation. All candidates to reproduce this section in their thesis verbatim

This thesis is composed of my original work, and contains no material previously published or written by another person except where due reference has been made in the text. I have clearly stated the contribution by others to jointly-authored works that I have included in my thesis.

I have clearly stated the contribution of others to my thesis as a whole, including statistical assistance, survey design, data analysis, significant technical procedures, professional editorial advice, financial support and any other original research work used or reported in my thesis. The content of my thesis is the result of work I have carried out since the commencement of my higher degree by research candidature and does not include a substantial part of work that has been submitted to qualify for the award of any other degree or diploma in any university or other tertiary institution. I have clearly stated which parts of my thesis, if any, have been submitted to qualify for another award.

I acknowledge that an electronic copy of my thesis must be lodged with the University Library and, subject to the policy and procedures of The University of Queensland, the thesis be made available for research and study in accordance with the Copyright Act 1968 unless a period of embargo has been approved by the Dean of the Graduate Research School. This thesis/dissertation* is available for the University of Exeter Library use (through Open Repository Exeter, ORE) on the understanding that it is copyright material and that no quotation from the thesis may be published without proper acknowledgement.

I acknowledge that copyright of all material contained in my thesis resides with the copyright holder(s) of that material. Where appropriate I have obtained copyright permission from the copyright holder to reproduce material in this thesis and have sought permission from co-authors for any jointly authored works included in the thesis.

Publications included in this thesis

Start this section on a new page. Delete any guidance text in your final thesis/dissertation.

If you choose to include publications as part of your thesis as described in [HDR Research Examination guidelines - Section 1 Including scholarly works in thesis](#), use this section to detail accepted or in press publication/s using the standard citation format for your discipline.

Papers submitted for publication and awaiting review should appear in the next section, [Submitted manuscripts included in this thesis](#).

On the page immediately preceding the chapter that includes your publication, in no more than one (1) page, describe your contribution to the authorship if you are not a sole author. In describing your contribution, you must satisfy the University of Queensland's [Authorship Procedure](#).

Authorship is based on having made a substantive contribution to at least one, and usually more than one, of the following activities:

- 1) conception and design of the project;
- 2) analysis and interpretation of the research data on which the publication is based;
- 3) drafting significant parts of the publication or critically reviewing it so as to contribute to the interpretation.

As an author, your contribution must be substantial, encompassing key ideas, research development, and the writing of the publication. You must have participated sufficiently in the publication to take public responsibility for at least that part of the work that you contributed.

It may be useful to refer to specific parts of the methods, analyses, results, or discussion to illustrate your contribution to the paper.

If you have not included any of your publications in the thesis then state "No publications included".

Submitted manuscripts included in this thesis

Delete any guidance text in your final thesis/dissertation.

List manuscript/s submitted for publication here. As described above for ***Publications included in the thesis***, on the page immediately preceding the chapter that includes the submitted manuscript, in no more than one (1) page, detail your contribution to the authorship if you are not the sole author.

If you have no submitted manuscripts from your candidature then state “No manuscripts submitted for publication”.

Other publications during candidature

Delete any guidance text in your final thesis/dissertation.

List other publications arising during your candidature using the standard citation format for your discipline. Divide your publications into sub-sections as appropriate in your discipline e.g., peer-reviewed papers, book chapters, conference abstracts. Papers submitted for publication and awaiting review are not considered publications and cannot be included in this section.

If you have no publications from your candidature then state “No other publications”.

Contributions by others to the thesis

Delete any guidance text in your final thesis/dissertation.

List the significant and substantial inputs made by others to the research, work and writing represented and/or reported in the thesis. These could include significant contributions to: the conception and design of the project; non-routine technical work; analysis and interpretation of research data; drafting significant parts of the work or critically revising it so as to contribute to the interpretation. The use of any third-party editorial assistance in preparing the thesis must be declared.

If no one contributed significantly then state “No contributions by others.”

Statement of parts of the thesis submitted to qualify for the award of another degree

Delete any guidance text in your final thesis/dissertation.

The thesis must be comprised only of research undertaken while enrolled in the doctoral program, as per the parameters described in [Section 2 in the University of Exeter TQA PGR Handbook, Chapter 11](#), unless otherwise approved by the Dean, Graduate Research School (UQ) and the Dean of Postgraduate Research and the Doctoral College (UoE) in advance of submission.

If you have been given permission to include your previous work that has been used towards another degree, you must list the relevant parts of the thesis that incorporates this work including, the degree name, year and institution, and the outcome of the submission of material.

If no parts of the thesis have been submitted in this way then state “No works submitted towards another degree have been included in this thesis”.

Research Involving Human or Animal Subjects

Delete any guidance text in your final thesis/dissertation.

All research involving human or animal subjects requires prior ethical review and approval by an independent review committee. At UQ, the relevant committee for research involving human subjects is the [Human Ethics Unit](#) and the relevant committee for research involving animal subjects is the relevant [Animal Ethics Committee](#). At UoE, ethics applications are reviewed and approved via Faculty Ethics Committees (for further information see the [Research Ethics](#) section of the PGR Handbook). Please provide details of any ethics approvals obtained including the ethics approval number (where relevant) and name of approving committees. A copy of the ethics approval documentation must be included in the thesis appendix.

If no human or animal subjects were involved in this research please state:

“No animal or human subjects were involved in this research”.

The Use of Generative AI in the preparation of this research

Start this section on a new page. Delete any guidance text in your final thesis/dissertation.

You must include one of the following statements in the declaration pages of your thesis/dissertation. The absence of any such statement will be considered a declaration that you have not used generative AI in preparing your work.

EITHER

I confirm that I have used AI tool(s) responsibly in my work and that no content from generative AI has been presented as my own work. All generated content from AI has been acknowledged and referenced according to the University of Queensland and University of Exeter guidelines and a log of AI use throughout my research degree has been included as an appendix at the end of the upgrade portfolio/thesis/dissertation.

OR:

I have not used any AI tools in preparing this upgrade portfolio/thesis/dissertation.

You must disclose any use of Artificial Intelligence (AI) tools in your research and thesis preparation and should include a copy of the declaration table per the guidance below as an appendix.

- [Guidance on the Use of Artificial Intelligence in Postgraduate Research](#)
- AI use at UQ - AI Student Hub - Library [Guides at University of Queensland Library](#)

Acknowledgments

Start this section on a new page. Delete any purple guidance text in your final thesis/dissertation.

Acknowledgements recognise those who have been instrumental in the completion of the project. Acknowledgements should include any professional editorial advice received including the name of the editor and a brief description of the service rendered.

Financial support

Start this section on a new page. Delete any purple guidance text in your final thesis/dissertation.

If you are the recipient of an Australian Government Research Training Program (RTP) scholarship, you are required to acknowledge this contribution. Please include the text below:

‘This research was supported by an Australian Government Research Training Program Scholarship’

As the recipient of a Studentship through the UQ-Exeter Institute, you are required to acknowledge this contribution. Please include the text below:

“This research was supported by UQ-Exeter Institute Joint Postgraduate Research Programme”

If you received any other financial support for your project, you are also required to acknowledge the funding body/bodies in this section.

Australian and New Zealand Standard Research Classifications (ANZSRC)

Start this section on a new page. Delete any purple guidance text in your final thesis/dissertation.

Provide data that links your thesis to the disciplines and discipline clusters in the Federal Government's Excellence in Research for Australia (ERA) initiative.

Please allocate the thesis a **maximum of 3** Australian and New Zealand Standard Research Classifications (ANZSRC) codes at the **6 digit level** and include the descriptor and a percent weighting for each code. Total percent must add to 100.

Example:

ANZSRC code: 060101, Analytical Biochemistry, 60

ANZSRC code: 060104, Cell Metabolism, 20

ANZSRC code: 060199, Biochemistry and Cell Biology not elsewhere classified, 20

Fields of Research (FoR) Classification

Allows for categorisation of the thesis according to the field of research.

Please allocate the thesis a **maximum of 3 Fields of Research (FoR) Codes** at the **4 digit level** and include the descriptor and a percent weighting for each code. Total percent must add to 100.

Example:

FoR code: 0601, Biochemistry and Cell Biology, 80

FoR code: 0699, Other Biological Sciences, 20

Remainder of the thesis

The remainder of the thesis should be in the following order

- Dedications
- Table of Contents
- List of Figures & Tables
- List of Abbreviations and Definitions used in the thesis
- Main text of the thesis (divided into chapters, sections etc)
- Appendices (if any, including a table confirming the use of AI tools to support your research, if applicable)
- Glossary (if any)
- Bibliography or List of References
- Index (if any)
