Lists

- First
- Second
- Third

Equations

This is an example equation

$$a^2 + b^2 = c^2$$

Tables

Table: Example table

Column 1	Column 2
A	B
C	D

Code

listings coloured highlighting is not currently supported. Best at present

```

1  # /// script
2  # requires-python = ">=3.14"
3  # dependencies = [
4  #     "numpy>=2.4.6",
5  # ]
6  # ///
7
8  import numpy as np
9
10 def main():
11     print("Hello")
12     a = np.array([0, 1, 2])
13     print(a)
14
15 if __name__ == "__main__":
16     main()
  
```
